Electronics and Communication Engineering | Network Technologies | Machine Learning | Deep Learning

Final-year Electronics and Communication Engineering student at Istanbul Technical University with over a year of hands-on experience designing, developing, and deploying AI and machine learning solutions in both corporate and startup settings. As a Project Researcher at Turkish Aerospace Industry, I led the creation of a conditional cGAN–based surrogate model that accelerated finite-element structural analyses by streamlining data preprocessing, training, and inference while preserving output fidelity. During my internship at Dill, I integrated TensorFlow and scikit-learn models into a customer-facing restaurant application. Experienced PyTorch, TensorFlow, scikit-learn, OpenCV, translate complex technical challenges into scalable, production-ready AI systems.

KEY COMPETENCİES

Python, TensoFlow, PyTorch	Report writing and presenting	English - C1
Java-Script, React, Firebase	Critical thinking skills	Spanish - A2
C, C#, Arduino	Network	Turkish - Native

PROFESSİONAL EXPERİENCE

Nokia **November 2024 - Present**
Intern

- Working as Network Service Dellivery Center (NSDC) Team member. As a team, we actively work on network automation, migration projects, and service delivery processes.

dill **June 2024 - October 2024**
Intern

- Working in a start-up focused on developing innovative applications for the restaurant sector.
- Engaged in application development and **machine learning** integration.

Turkis Aerospace Indsutry **September 2024 - June 2025**
Project Researcher

- I am working as a researcher in the Turkish Aerospace Industry LIFT UP Industry Focused Projects Program with our project topic titled **"Improving the Duration of Structural Analysis Using Machine Learning".**

ITU Rockwell Automation Laboratory **July 2023 - Sep 2023**
Intern

- Network 101, Intro to Node Red , Python, Qt, PyQt6
- Developing demo IP - Port Scanner App

IEEE ITU Student Branch **June 2022 - July 2023**
Vice Chairperson of Communications Society

- Managed the student club's general activities, coordinated between members, and supervised scheduled events. Organized panels and conferences.

EDUCATİON & CERTİFİCATİONS

Bachelor's Degree | Istanbul Technical University, Istanbul
Electronics and Communication Engineering
Expected Graduation: 2025

- Nokia TAP Certification
- Nokia Certified Network Routing Specialist I (NRS I)
- IBM Machine Learning with Python
- MATLAB Onramp
- Simulink Onramp
- Control Design with Simulink Onramp
- Programming Concepts with Python - Alison
- CCNA Cert Prep Course Certificate
- Spanish Course (A2)

EXTRACURRİCULAR ACTİVİTİES

Audit Specialist **07.22 - 08.22**
Ali Bey Resorts

Editor **10.21 - 11.22**
arı24 - Student Media Organization

Software Team Member **02.22 - 07.23**
CSAT - Model Satellites Team
