Abdullah Akman DEMİRKAN | İstanbul, TURKIYE | **Telephone:** +90 555 761 72 01 | **E-mail**: a.akman.d@gmail.com
Skype e-mail and user name: a.akman.d@outlook.com, a.akman.d | **LinkedIn profile:** https://www.linkedin.com/in/akman-demirkan/
EU Blue Card Eligible

PROFESSIONAL SUMMARY

- Industrial Engineer (PhD Candidate) | Process Optimization & Data Analytics
- 10+ years in Chemical/Production engineering (PET resin, smartphones) and 2 years in IT (Agile, SQL, Power BI)
- Proven in reducing costs ($5.3M profit increase), waste (90%), and leading cross-functional teams
- PhD research in Operations Research with applied projects in lean production and sustainability

WORK EXPERIENCE

Synpet Technologies | Istanbul, TURKIYE **Feb 2024 – Present**
https://synpet.com/

Process Engineer

- Member of project for a circular plastics recycling facility in Belgium, including flow stream engineering, process calculations, and collaboration with outsourced engineering firms
- Developed PFDs/P&IDs and technical specs for equipment procurement, ensuring compliance with EU sustainability standards
- Evaluated 3rd-party engineering deliverables (consultants, investors), optimized designs through feedback/revisions, and sourced vendors for complex engineering packages
- Conducted literature reviews and technical discussions with partners to drive CAPEX/OPEX reductions and process improvements
- Spearheaded pilot trials with technicians, collecting and analyzing data for heat/mass balance development to scale production processes

SEPA Cyber Tech | Istanbul, TURKIYE **Sep 2023 – Feb 2024**
Tatilbudur | Istanbul, TURKIYE **Jan 2023 – Sep 2023 (Contract Role)**
https://sepa-cyber.com | https://www.tatilbudur.com/

Project Manager (IT & Agile Development)

- Led end-to-end software development cycles (web/mobile apps, fintech) in Agile/Scrum
- Spearheaded data-driven projects: Developed Power BI dashboards and SQL-based reports to optimize customer/seller KPIs
- Managed cross-functional teams (vendors, stakeholders) and streamlined ITSM processes
- Oversaw vendor management, customer collaboration, and cross-functional coordination to drive project success.

Protel Co. | Istanbul, TURKIYE **Nov 2022 – Jan 2023 (Contract Role)**
https://www.protel.com.tr/

Software Test Specialist

- Conducted manual testing, defect tracking, and root cause analysis in Agile environments
- Prepared test scenarios, environments, and data while managing issues via test management tools
- Collaborated with developers to troubleshoot and resolve software defects

Salcomp PLC | Istanbul, TURKIYE **Feb 2021 – Aug 2022**

Repair (Material and Debug) Team Leader **Feb 2022 – Aug 2022**

- Led a cross-functional repair team (2 engineers, 6 technicians, 26 workers) for smartphone assembly (FATP), managing WIP, scrap rates, and repairable materials
- Slashed scrap costs by implementing a defective product cycle system and collaborating with SMT FAE to reduce PCBA failures (mainboard/subboard)

Senior Process Engineer **Feb 2021 – Feb 2022**

- Co-led the FATP Process Engineering team (13 engineers), driving continuous improvement via Gemba walks, Kaizen, and 5S audits
- Boosted production yield from 93% to 99% through root cause analysis (RCA, PFMEA) and process stabilization initiatives
- Spearheaded smartphone production troubleshooting, creating a centralized failure database to enhance repair efficiency and yield

Key Achievement: Played a pivotal role in establishing Xiaomi's first Turkish smartphone plant, designing manufacturing processes from scratch for 99% production yield

KÖKSAN | Gaziantep, TURKIYE **Nov 2011 – Feb 2021**
https://en.koksan.com

Production Chief **Nov 2013 – Feb 2021**

- Led daily shift operations for a 600+ ton/day production plant, managing a team of 7 technicians and 13 workers
- Controlled processes via YOKOGAWA DCS automation, coordinating startups, shutdowns, and emergency responses (e.g., electrical failures)
- Drove continuous improvement:
  - Reduced off-spec waste by 90% (10% → 1%) through a model changeover program, sustaining quality from 2015 onward
  - Implemented lean initiatives (TPM, SAP MM) and R&D collaborations to resolve customer quality complaints
  - Developed automated reports to optimize process parameters, enhancing preventive maintenance and performance tracking

Project & Process Engineer **Nov 2011 – Nov 2013**

- Delivered a $150M PET Resin plant startup on time, overseeing:
  - Installation of 250+ equipment and 1,000+ pipelines (via P&IDs/isometric drawings)
  - Commissioning with a 27-member engineering team, directing 10 workers and 5 process specialists

PROJECTS

1. **Commercialization Project for Circular Plastics Plant, Feb 2024 - Present** **Synpet**
2. **Product Management and Member of SDLC Projects, Nov 2022 – Feb 2024** **Protel, Tatilbudur, SEPA Cyber**
   - Led customer collaboration projects for fintech solutions, coordinating cross-functional teams (5 members)
   - Managed stakeholder requirements, Agile/Scrum workflows, and business analysis to align deliverables with client needs
3. **Smartphone Production Start-Up (NPI), Feb 2021 – Feb 2022, Budget: $30M** **Salcomp PLC**
   - Managed new product introduction (NPI) for smartphone models, resolving operational bottlenecks and training operators (team of 8)
   - Ensured seamless production launch within budget and timeline constraints
4. **Production Plant Start-Ups (CP1 & CP2), Nov 2011 – Feb 2021, Budget: $150M** **KÖKSAN**
   - CP2 Start-Up (2020–2021): Led process analysis, design reviews, and HAZOP documentation for safety compliance (team of 8)
   - CP1 Start-Up (2011–2013): Contributed to the launch of the main production plant ($150M budget), establishing foundational workflows
5. **Recycled PET Production Project, Apr 2018 – Sep 2019, Budget: $0.5M** **KÖKSAN**
   - Collaborated with R&D and contractual partners to integrate recycled PET resin into beverage bottle production (team of 7), supporting sustainability goals
6. **Equipment & Process Optimization, Nov 2013 – Feb 2021** **KÖKSAN**
   - Revamped machinery and processes through capacity expansion, modernization, and cost-benefit analyses (team of 10)
   - Evaluated equipment vendors, compared offers, and executed economic feasibility studies
7. **Sustainable Production Investments, Nov 2013 – Feb 2021** **KÖKSAN**
   - Spearheaded plant capacity expansions and eco-friendly initiatives (e.g., recycled PET resin production) (team of 15)
   - Aligned projects with long-term sustainable production targets

Education

- PhD in Operations Research | Gaziantep University | Gaziantep, TURKIYE 2020–Present
  https://www.gantep.edu.tr/en/
- MSc in Industrial Engineering | Gaziantep University | Gaziantep, TURKIYE 2016–2019
  Thesis: Optimized PET production planning, generating $5.3M additional profit and $19.4M saving
- BSc in Chemical Engineering | Cumhuriyet University | Sivas, TURKIYE 2006–2011
  http://www.cumhuriyet.edu.tr

Skills

Technical: Process Engineering: PET resin, YOKOGAWA DCS, MES, Lean, SAP

IT/Data: SQL, Power BI, Agile/Scrum, Jira, Postman

Tools: AutoCAD, MS Project, MS Visio, GAMS

Languages: English (C1), German (A1), Turkish (Native)

Certifications: ISO 27001, QMS Internal Auditor
