Rosenheim / Germany

ABOUT ME

Applied physicist with a multidisciplinary background in experimental physics, software development, and science communication. Experienced in particle measurement technologies and worked as a physicist intern at a German instrumentation company.

CERTIFICATES

- Microsoft Approved Certifikates for Web Development (ASP.NET) and SQL DataBase
- Technical Research Intern (Catalytic Instruments, Rosenheim / Germany)
- AWS Cloud Practitioner

LANGUAGE

- German (B1 certificate of participation currently improving- with Goethe Institut)
- English (B2 – Upper Intermediate)
- Turkish (Native)

EDUCATION

2016 - 2021

Yildiz Technical University , Istanbul
Physics BSc.

2024- Ongoing

İstanbul Technical University

Engineering of Physics MSc.

EXPERIENCES

Physicist (Working student) -Istanbul,TR

Yildiz Technical University -2021

- Built and donated amateur telescopes to rural schools in a ministry-backed project.

(Responsibility for glass-to-mirror conversion , Quality Assurance, Team Leading, Marketing, Presentation)

Science Communicator - Eskişehir,TR

- Demonstrated and explained hands-on science experiments across various fields (Astronomy, optics, electromagnetism) to visitors of all ages.

Software Developer - Eskişehir,TR

- Developed web-based projects integrating air quality sensors, AI applications, and RF technologies.
- Contacting with clients, participating technology seminars

Physics Engineer Intern -Rosenheim, DE

- Designed experimental setups for product efficiency testing
- Analyzed data using Python-based tools
- Assisted in technical documentation and prototype development, lab working

SKILLS AND FAMILIARITY

- Python (experience using ML libraries such as scikit-learn, pandas, TensorFlow, and PyTorch.
- Zemax (e.g Thin-film coating analysis, for my Bachelor thesis)
- TouchDesigner (for data visualization)
- Newtonian Reflectors
